### **SIMPLE SONG Ralph Hultgren**

Expressiveness in a young band sometimes seems like a contradiction of terms! So when we come across a good teaching piece to work on the skills of legato style playing, melodic counter, and emotional peaks and valleys we almost don't believe it at first. However, Hultgren has composed that very kind of piece - a beautiful work that is easy to get in the ear, and easy to get under the fingers. You can't go wrong with this one.
